**NEW SCHOOLS AND
PROGRAMS**

52

**NEW MOVE INTERNATIONAL
TRAINERS (MITS)**

830

**BASIC PROVIDER TRAINING
PARTICIPANTS**

I was so thankful to connect with many people and hear about their programs, their hardworking staff, and their amazing students. This year 17 new schools and programs received MOVE training, Over 830 people attended basic provider trainings, and 52 people became MOVE International Trainers (MITs). We also added a new Model Site this year. As you know, the goal of all this hard work and training is to support the students and clients we all work with.

Hello! I hope you have had a relaxing and refreshing summer. I just completed my first full year as the MOVE program manager and I was fortunate to meet and work with so many wonderful schools, adult programs and trainers. I completed a major update to the training materials in the spring and will be sharing it with MITs across the country. The feedback has been good and hopefully it serves to enhance trainings and continue supporting schools.

One of my goals this year was to connect with MITs and Model sites. I was able to video chat and email with many of you and hear about the amazing progress that students are making. I heard about students who progressed enough to graduate from the MOVE program, those who took their first steps in a walker, and adults who were getting out in their community because of the support MOVE offers them. I am in awe of all of the people who are putting in the hard work every day in their programs to make these success stories possible.
